

AMENDMENTS TO THE SPECIFICATION

Please replace the second full paragraph on page 13 with the following amended paragraph:

As an example, the liner 5 on the upper shell 1 is provided with 4 (four) protrusions 5H, while the liner 5 on the lower shell 2 is provided with 3 (three) protrusions 5H. In the second embodiment, the protrusions ~~5a~~5H of the upper shell 1 are not aligned vertically with those of the lower shell 2, but they may be aligned with one another.
